

Cyclops Release Notes

1. Version information

Item	Description
Firmware Version	V4.1.1
Models	Cyclops315,Cyclops319,Cyclops325,Cyclops335,Cyclops350,Cyclops635,Cyclops650
Mobile Client	Smart Thermal

2. What is new:

- Update the AI data model, solving the issue that people farther away from the device can't be identified;
- Interface data optimization includes adding Turkish, complementing translate text and adjusting text coordinates, etc.;
- Solve the problem that the OLED pseudo-color switch is invalid when the mobile phone APP performs pseudo-color switching;
- Update the translation table, modify some translated texts in Ukrainian, German, Polish, Latvian, adjust the coordinates to center the text, and move the newline position of individual Ukrainian prompts forward;
